Dr. Emmons' Works.

Weymouth, June 6, 1842.

Rev. A. A. Phelps

Dear Brother,

With this note you will receive the works of Dr Emmons in six volumes - a present from the young converts in my society - as a token of their gratitude for yr labours of love with us ~~and~~ in our recent revival. As I have conversed with you on this subject, it will not be necessary to write a letter. A set of the same works have been presented to me. It is truly pleasant to receive such tokens of gratitude from those with whom we have been laboring & praying in the solemn & interesting scenes of a revival. The Lord keep them unto the end, will be yr prayer as well as mine.

Truly yrs in the Gospel

Dear Brother Emery,

It gives me great pleasure to acknowledge the receipt, through you, a few days since, of a set of the works of Dr. Emmons, as a present from the young converts in your society. I can only assure you & them in return, that the present is very gratefully received, & will ~~ever~~ be highly prized. It is extremely valuable in itself, but as a testimonial of the affection & confidence of those with whom I have been permitted to labor & pray in the interesting scenes of a revival here, & with whom, in the purer service of a common Lord, I hope to spend an eternity hereafter, it is doubly so. As such I shall always regard it with gratitude & pleasure, & shall cherish it as a choice memento of the week I was permitted to spend with you - a week, I doubt not, that we & they will always be able to look back to, as one of the bright spots in the period of our earthly existence. Heartily reciprocating the affection & confidence of which these works are an expression, I am,

Yours & theirs truly,

A. A. Phelps.
